This application is AES Direct Certified. Being an AESDirect certified application; LINK SYSTEMS can submit export details to American Customs directly. The details provided through LINK SYSTEM are compatible to the pre-requisites for getting exports details submitted to US customs. This system is easily customizable to any country specific EDI submissions.

## About Notetech

Notetech Software, Established in 1998, operates from Cochin, is currently the trusted Offshore Software Development Center for leading International Software Vendors. We provide industry standard software solutions, offshore development and support for software products of leading Software Companies around the world.

We have constant clients, both ISVs and Service Companies round the globe who explore our services.

## Our Clients

### 1. iEnterprises:

- Privately held company headquartered in Murray Hill, New Jersey, USA.
- Hundreds of customers worldwide including HoneyWell, Checkpoint, Plante & Moran, Arthur D. Little, BP Amoco.
- IBM Premiere Business Partner and RIM Preferred Alliance Partner.
- Vast network of global business partners.

### 2. NGSINC Technologies (Currently NEXGEN):

Organized in 1988 as a Maryland Corporation under the name Personal Computer Consultants (PCC). Its founder Edward L. Howlette Jr. intended to pursue the sale of hardware based software security keys that take advantage of an innovative technology he developed and for which he was issued a patent in 1990.

In 1993, PCC was one of the first 10 companies to join the Lotus Business Partners program, and within three years, the Lotus Professional Services organization was utilizing our resources on more engagements than any other partner in the United States.

## Products Supported by Notetech for iEnterprises.

- ⇒ **Mobile Edge** (A mobile CRM application that extends solutions wirelessly to Blackberry Devices)
- ⇒ **Lotus Notes CRM**
- ⇒ **Lotus Notes Connectors** ( A tool that synchronizes Lotus Notes e-mails with CRM solutions)
