US Software Company

Notetech's Development Facility in India

- The project manager from client side in U.S co-ordinate the work with Notetech project leader and other members in the exclusive team in Notetech
- When the project having extra works Notetech temporary team is assigned along with exclusive team and relieve the temporary professionals from the project when the extra works over.
- The client needs to pay only for the work done by exclusive team. i.e., he need not pay if there is no work. At that time the exclusive team will be assigned with other clients' projects.
- The US clients' Software engineers can do the installation & training of end users.
